Thinking For The Future

"We do not inherit the Earth from our ancestors.
We borrow it from our children"

ABOUT ARMADA GROUPE

Who We Are

Armada Group is dedicated to providing practical solutions within the construction sector. With a longstanding commitment to quality and efficiency, we have adapted and evolved to meet the ever-changing needs of our industry and clients.

Our Purpose

At the core of our operations lies a focus on sustainability and innovation. By fostering strong partnerships and maintaining rigorous standards, we ensure that our work not only meets today's demands but also lays a reliable foundation for the future.

A Global Presence

Through our offices in Istanbul and Brussels, we have built a strong international network, allowing us to collaborate with architects, designers, and construction professionals worldwide.

Our products are used in major residential, commercial, and public infrastructure projects, demonstrating our commitment to excellence on a global scale.

With a longstanding commitment to quality and efficiency, we have adapted and evolved to meet the ever-changing needs of our industry and clients.

Building for the Future

Armada Groupe is more than a supplier—we are a partner in progress. By continuously investing in research, sustainable solutions, and advanced technology, we aim to shape the future of construction. Our mission is to provide materials that enhance efficiency, reduce environmental impact, and contribute to safer, more resilient structures worldwide.

OUR BRANDS

Innovative Products For Every Project

Armada Group's portfolio covers every facet of modern construction and outdoor living. Our advanced adjustable pedestal systems Support, Support Eco, Surplot, SmartPlot, and DüzAyak are engineered for specific installation needs. We also offer premium solutions like Armstone for stone, Armwood for wood, Aqua-Verde for durable flooring, and Armroof Green for roofing. Finally, our 10line series delivers specialized systems for pools (10line Havuz), landscaping (10line Peyzaj), and terraces (10line Teras).

GROUP COMPANIES

Diverse Expertise, Unified Vision

Armada Group brings together a portfolio of specialized companies that extend our expertise across various sectors. Armada Botanik leads in green infrastructure by producing ornamental plants and pioneering innovative green roof and vertical garden systems. ST Dış Ticaret drives our international trade by exporting construction products and advanced pedestal systems alongside complementary flooring solutions. 2M-Hotellerie (2M Büro Dizayn) provides comprehensive office furniture, design, and project services, while Otan Kültür, Sanat, Turizm is dedicated to creating eco-friendly urban environments that harmonize art and nature. Finally, Salkım Şarap introduces Turkey's unique wines to both local and international markets.

OUR LEGACY & EXPERTISE

Expertise in Construction Material

Founded in Istanbul in 1994, Armada Groupe is a leader in the construction sector, specializing in the marketing and distribution of high-quality building materials. With nearly three decades of experience, Armada Groupe has built a strong reputation for providing innovative, sustainable, and efficient solutions for flooring, roofing, and landscaping projects.

A Global Leader in Innovative Construction Solutions

Operating from its headquarters in Istanbul and a regional office in Brussels, Armada Groupe collaborates with international partners to bring the latest advancements in construction materials to global markets. The company focuses on cutting-edge technology, eco-friendly solutions, and high-performance products tailored to meet modern architectural and engineering demands.

Comprehensive Solutions for Every Construction Need

With a diverse portfolio that includes SurPlot, Armstone, Armwood, and AquaVerde, Armada Groupe ensures comprehensive solutions for residential, commercial, and public infrastructure projects. Its commitment to quality, innovation, and sustainability positions it as a trusted partner for architects, designers, and contractors worldwide.

Innovation & Sustainability

Armada Groupe continuously invests in research and development to enhance its product offerings and maintain its leadership in the industry. By integrating state-of-the-art manufacturing processes and sustainable practices, the company meets the evolving needs of the construction sector while reducing its environmental footprint.

With a strong distribution network and a dedicated team of experts, Armada Groupe delivers tailored solutions that improve efficiency, durability, and aesthetic appeal in various construction applications.

WHAT IS SURPLOT?

An Innovative Adjustable Pedestal System

SurPlot is an advanced adjustable pedestal system designed to create durable and stable flooring solutions for outdoor spaces. Whether for terraces, decks, or public walkways, SurPlot provides an innovative approach to elevated flooring applications, eliminating the need for traditional fixing methods like adhesives or concrete.

Quick Installation & Durability

Unlike conventional flooring solutions requiring extensive groundwork, SurPlot simplifies installation with its height-adjustable system. This ensures a level and stable surface while enhancing water drainage to prevent ponding.

Made from recyclable materials, it is weather-resistant and highly durable, making it a sustainable choice for architects, landscape designers, and contractors. Its environmentally friendly design, made from recyclable materials, further supports sustainable building practices by reducing waste and promoting reusability.

HOW DOES IT WORK?

The SurPlot system features height-adjustable pedestals supporting ceramic, stone, wood, and composite decking. Easily installed on various surfaces, it ensures a level finish with slope correction and prevents damage to underlying layers.

System Components & Benefits

-  Adjustable Pedestals – Customizable in height to accommodate different project needs.
-  Joist Holders & Joint Accessories – Enhances the stability and flexibility of the flooring layout.
-  Easy & Fast Installation – Requires no glue, mortar, or permanent fixing materials.
-  Weather Resistance – Performs well under extreme temperatures and various weather conditions.
-  Flexible Design – Compatible with a wide range of outdoor flooring materials, offering creative design possibilities.
-  Sustainability – Made from recyclable materials and allows for full reusability in different locations.

SURPLOT

APPLICATIONS

SurPlot provides a versatile and durable flooring system for outdoor spaces. Its adjustable pedestals ensure a stable, level surface while seamlessly integrating stone, wood, or composite decking. Ideal for residential and commercial projects, it combines flexibility, aesthetics, and long-term performance.

By eliminating the need for adhesives or permanent fixtures, SurPlot simplifies installation while enhancing drainage, ventilation, and durability. Its modular design allows architects and designers to create customized, high-quality spaces with seamless material transitions. Built for stability and resistance to environmental conditions, SurPlot ensures long-lasting performance and low maintenance, making it a reliable choice for any outdoor setting.

Versatile and Adaptable Solutions for Every Surface

SurPlot's adaptable system supports stone tiles, wood decking, and mixed materials, providing stability, durability, and effortless installation on various surfaces. Its adjustable pedestals ensure a level and secure foundation, while enhancing drainage and ventilation to prevent moisture buildup and material deterioration. By extending the lifespan of outdoor flooring, SurPlot offers a cost-effective, low-maintenance, and aesthetically pleasing solution for both residential and commercial applications.

Wood Decking

SurPlot elevates wood and composite decking, preventing water damage and enhancing airflow for durability.

Stone & Ceramic

Perfect for ceramic, granite, and stone, SurPlot ensures stability, even spacing, and crack prevention.

Mixed Materials

Seamlessly combines wood, stone, and composite, allowing smooth transitions and durable designs.

SURPLOT PRODCUT RANGE

SurPlot offers a variety of adjustable pedestals designed to meet different height and load requirements.

EXPANDING SURPLOT'S POTENTIAL

Suitable for standalone use or integration with SurPlot pedestals, Armstone, Armwood, and AquaVerde provide high-quality flooring, decking, and landscaping solutions

AquaVerde enhances outdoor spaces with green roofing, erosion control, and sustainable water management.

Armwood offers durable wood and composite decking that combines natural aesthetics with weather resistance.

Armstone provides high-quality stone solutions, ideal for terraces, walkways, and other outdoor surfaces.

AQUAVERDE

Sustainable Landscaping Solutions

Essential Solutions

1 Elevated Flooring Elements

Prevents water contact for machinery and equipment.

2 Green Roof & Wall Systems

Enhances insulation and aesthetics in urban environments.

3 Firm Soil Elements

Supports concrete and natural stone coatings on roofs and balconies.

4 Drainage Plates

High-impact polystyrene (HIPS) panels for efficient water management.

AquaVerde specializes in eco-friendly landscaping and water management systems, enhancing outdoor spaces through sustainable solutions. From green roofs and walls to drainage and firm soil elements, AquaVerde products help create more livable, resilient, and environmentally conscious spaces.

Green Roof Systems

Extensive Green Roof System

Low-density green roofs are lightweight, weather-resistant, and covered with adapted plants, offering a natural, eco-friendly look.

Intensive Green Roof System

Intensive green roofs support trees, shrubs, and pedestrian access, needing more upkeep and water. They also enhance underground spaces like parking areas.

AquaVerde's solutions can be used independently or integrated with SurPlot pedestals for enhanced performance in landscaped and urban environments. Whether it's rooftop greenery, drainage solutions, or elevated flooring, AquaVerde provides the ideal foundation for modern, sustainable designs.

ARMWOOD

Superior Decking Solutions

Features & Benefits

- 1 Versatile Applications**
Suitable for homes, businesses, and public outdoor areas.
- 2 Hidden Fasteners System**
No visible screws for a seamless, modern look.
- 3 Weather & Insect Resistance**
Protects against moisture, rot, and pests.
- 4 Low Maintenance**
Long-lasting and easy to clean.

Eco-Friendly & Sustainable

Armwood uses responsibly sourced wood and composite materials, ensuring durability with minimal environmental impact.

The Warmth & Durability of Wood

Armwood offers thermowood, natural wood, and composite decking, combining durability and aesthetics. It resists moisture, insects, and extreme weather, making it ideal for terraces, walkways, and poolside decks with minimal maintenance.

Wood Options

■ Natural Wood

Classic, authentic wood with a warm, natural look.

■ Thermowood

Heat-treated for enhanced durability and weather resistance.

■ WPC Composite

A low-maintenance blend of wood fibers and polymers for superior longevity.

ARMSTONE

Premium Stone Solutions

Features & Benefits

- 1 High Durability**
Resistant to wear, harsh weather, and heavy traffic.
- 2 Wide Applications**
Perfect for terraces, poolsides, walkways, and urban spaces.
- 3 Customizable Finishes**
Available in polished, sandblasted, and brushed textures.
- 4 Low Maintenance**
Stain-resistant and easy to clean.

Precision-Cut Excellence

Armstone is precisely cut and finished, ensuring a seamless fit, refined look, and lasting durability.

ARM/STONE

Refined & Durable Outdoor Solutions

Armstone is designed for a wide range of outdoor applications, ensuring stability, aesthetics, and durability. It enhances modern urban landscapes, commercial spaces, and private properties, providing an elegant yet resilient surface solution.

Stone Options

■ Natural Stone

Classic and elegant, offering unique textures and timeless durability.

■ Composite Stone

Engineered for strength, combining natural aesthetics with enhanced resistance.

■ Outdoor Ceramic Stone

Modern and weather-resistant, ideal for high-traffic outdoor spaces.
